Title: How Does Gridipedia Help You Applying Grid Technologies to Business?

The screenshot shows a Mozilla Firefox browser window displaying the HPCWire website. The page title is "Gridipedia Helps You Apply Grid Technologies to Business". The article is dated January 21, 2009, and is the first of two pages. The main text begins with "BRUSSELS, Jan. 20 -- Interested in applying grid technologies to business? Then it's well worth bookmarking www.gridipedia.eu. Gridipedia provides you with a repository of grid software components and solutions designed to meet common business requirements. In addition it is also a useful source of information on design patterns for solutions to common grid problems, proven use cases on companies that are applying grid solutions in industry and the legal issues that relate to grid computing."

Below the main text, there is a section titled "What is Gridipedia?" which states: "Gridipedia is a knowledge and toolset repository which has been developed consisting of grid service components and best practices to support European businesses with the uptake of..."

The right sidebar features a "Off the Wire" section with a list of recent articles:
